Index of Abstracts

Bold faced figures refer to abstracts, light face figures to pages.

Allergy and the oral cavity; **209-124.**
Alveolar pyorrhea, etiology, influence of diet, **321-89.**
Are the upper or lower anterior teeth first lost in pyorrhea? **162-133.**
Autogenous vaccine and surgical intervention, in periodontoclasia, **398-114.**
Auto-vaccine in treatment of intestinal microbic invasion accompanying inflammatory lesions of gingiva, **329-92.**

Bacteremia and oral sepsis with reference to endocarditis, **59-84.**
Bacterial content of mouth by direct count, **137-127.**
Bismuth, oral manifestations of, **250-101.**
Black discoloration of the incisors, **150-130.**
Black tongue and halitosis, **149-130.**
Bleeding of gingiva, **403-116.**
Bleeding gums, **238-98.**
Blood examinations, clinical indications for, in periodontia, **240-98.**
Breath odors from alliaceous substances, cause and remedy, **141-128.**
Burning pain and blood circulation in the mouth, **151-131.**

Calculi formation, dental, report on excessive, **318-88.**
Calcium, fixation in tissues in regeneration of paradentium, **405-116.**
Calcium variations in pathologic states, **249-101.**
Calculus, salivary and serumnal, **341-95.**
Calcium and phosphorus metabolism, effect of diets on, **402-116.**
Carcinoma of the mouth, **133-127.**
Chronic glossitis, **152-131.**
Chromic acid, **207-124.**
Classification of types, **404-116.**
Colloidal sulphur and treatment of pyorrhetic conditions, **379-108.**
Constitutional factors in paradental diseases, **312-86.**
Constructive treatment of paradental tissues, **412-119.**
Cutaneous moniliasis associated with oral thrush, **138-128.**

Dental caries and paradentoses, **370-106.**
Dental hygiene, present status, **413-119.**
Diabetic patient, dental care of, **389-105.**
Diabetic patients and surgical intervention, **420-121.**
Diagnosis and therapy of paradentosis, **388-111.**
Diagnosis and treatment of some referred periodontal cases, **161-132.**
Diagnosis of syphilis, **153-131.**
Diagnosis of Vincent's infection, **210-124.**
Diagnosis, **247-101.**
Diagnosis of conditions leading to destruction of teeth and investing tissues, **322-89.**
Diet in relation to dental disease, **320-88.**
Diseases of the gums, common, their treatment, **326-91.**
Diseases of soft tissues of mouth, **241-99.**
Diseases of mouth, infectious, **253-102.**
Disease, periodontal, specific treatment, **372-106.**
Disintoxication associated with treatment in paradentosis, **378-108.**
Dunlop method of treating periodontal lesions, **408-118.**
Dysentery, infection of the mouth in relation to, **311-86.**

Effects of Vitamin D. **139-128.**
Endocrine disturbances, oral manifestations of, **323-89.**

Fissure of lip, **154-131.**
Flap operation, **410-118.**
Fusiform bacillus, **57-84.**
Fusospirochetal infections, a new therapeutic preparation, **217-126.**
Fusospirochetical infections, treatment, **206-123.**
Fuso-spirochetosis, therapy of, **383-109.**

Gingivectomy, **386-110.**
Gingivitis, chronic and recurrent, penetration of micro-organisms into gum as a cause, **58-84.**
Gingival fibrosis and osteogenesis in treatment of paradentosis, **390-111.**
Gingivitis gravidarum, **135-127.**
Gingival injury in dogs, experimental, **177-83.**
Gingival re-attachment to enamel, **169-80.**
Gingival re-attachment to the enamel, **373-106.**
Gongylonema infestation in man, **163-133.**
Gums and circumradicular membrane in physiological and pathological condition, **174-82.**

Habit, an etiologic factor of periodontal disease, **337-94.**
High heat applied in treatment, **385-110.**
Histology and histogenesis of the rugae in man and several mammals, **168-80.**
History of paradentoses, **397-114.**

Lead, absorbtion of, can it produce inflammation of the gums? **324-90.**

Malignant tumours of mouth, **140-128.**
Malocclusions in relation to periodontal disease, **406-117.**
Mastication and paradentosis, **327-91.**
Mechanical stabilization on regeneration in paradentosis, **394-113.**
Medico-dental case records; fusospirochetal angina, **215-125.**
Mercurial stomatitis, **242-99.**
Mouth as an autobiography, **315-87.**

Naevus spongiosus albus, mucosae, **237-98.**
Nerve fibres of pulp and peridental tissues, observations on relative size of, **170-80.**
Nerve palsy, seventh, and fusospirochetal infection, **225-105.**

Occlusal stress in periodontal tissues of human teeth, evidence of excessive, **171-81.**
Occlusion, normal dental, **233-97.**
Odontological ideas and paradentosis, **143-129.**
Once more, editorial on pyorrhea, **382-109.**
Orthodontia and periodontia, correlation of, **415-120.**
Osteodystropic type of paradentosis in animals, **235-97.**
Osteogenic fibrosis in treatment of pyorrhea, **391-112.**
Osteitis fibrosa and paradentosis, **176-83.**
Osteomyelitis of maxilla following pyorrhetic sinusitis, **334-93.**
Ozone in bucco-dental therapy, **380-108.**
Ozone in dental therapeutics, **393-113.**

Pain, **411-118.**
Paradental diseases, constitutional factors in, **343-96.**
Paradental health, safeguarding in dental reconstruction, **375-107.**
Paradentosis among the Abyssinians, **327a-91.**
Paradentosis and Basedow's disease, **377-107.**
Paradentosis, casuistry in, **328-92.**
Paradentosis, classification and diagnosis, **239-98.**
Paradentosis, etiological factors in various types of, **314-87.**
Paradentosis, etiology of, **325-90.**
Paradentosis, narrow views of, **338-95.**
Paradentosis, relation with a systemic disturbance, **335-93.**
Paradentosis, statistical survey on, **316-87.**
Parathyroid and pituitary glands, dental influence of, **175-83.**
Parodontal diseases; treatment, including surgical eradication of pockets, **414-120.**
Parodontosis, origin, **340-95.**
Pedodontia to prevent periodontia, **342-96.**
Pemphigus foleaceus, **164-133.**
Periodontal attachment levels, anterioposteriorly, comparison of, **178-83.**
Periodontal disease, **246-100.**
Periodontal diseases, etiology, **339-95.**
Periodontal disease, relation of diet to, **333-93.**
Periodontal disease, treatment, **418-121.**
Periodontal lesions, treatment, **376-107.**
Periodontia, **61-122.**
Periodontia treatment for maximum attachment, **396-113.**
Periodontitis progressiva chronica, **245-100.**
Periodontoclasia, **336-94.**
Periodontoclasia, early recognition and treatment, **381-109.**
Periodontoclasia, development and pathology, **344-96.**

Periodontia treatment for maximum attachment, **396-113.**
Periodontitis progressiva chronica, **245-100.**
Periodontoclasia, **336-94.**
Periodontoclasia, early recognition and treatment, **381-109.**
Periodontoclasia, development and pathology, **344-96.**

Periodontology, origin and development, 387-110.
Periodontoclasia, treatment, 418-121.
Physiologic dentistry, 371-106.
Prevention of periodontal disease by the general practitioner of dentistry, 160-132.
Prevention from periodontist's viewpoint, 399-115.
Preventive dentistry and the dentist, 142-128.
Preventive dentistry and the newer preventive medicine, 144-129.
Preventive dentistry, its possibilities and limitations, 146-129.
Program for postgraduate instruction in periodontia, 145-129.
Prosthesis in the prophylaxis and therapy of paradentosis, 319-88.
Protean pyorrhea, 147-130.
Pyorrhea, 148-130.
Pyorrhea, 409-118.
Pyorrhea alveolaris, 416-120.
Pyorrhea alveolaris and radiography, 374-107.
Pyorrhea alveolaris, cause of, 331-92.
Pyorrhea alveolaris, microscopical pathology of, 172-81.
Pyorrhea at twelve, 330-92.
Pyorrhea, criticism of orthodox theory, 332-92.
Pyorrhea, differentiation of types, 251-103.
Pyorrhea, no bone necrosis in, 317-88.
Pyorrhea pockets, condition of alveolar bone underlying, 173-82.
Pyorrhea surgery for the general practitioner, 407-117.
Pyorrhea, treatment and local hygiene, 392-112.

Radiograms in periodontia, 253-104.
Radium dosage in carcinoma of the tongue, 159-132.
Record chart in paradentoses, 244-100.
Researches, stomatologic, on intraoral pH, 254-105.
Review of views on Vincent's infection; review, 212-125.

Salivary calculi, formation of, 66-85.
Scorbutic gingivitis, 252-102.
Scrotal tongue, 155-131.
Sinus in gums from toothpick trauma, 156-131.
Soap as a therapeutic agent in Vincent's, 219-126.
Soap considered as a gingival poison, 136-127.
Stains on teeth, 157-132.
Standard periodontia procedure, principles involved, 401-115.
Stomatitis and ophthalmia, 243-99.
Stomatitis in children, value of early diagnosis, 234-97.
Stomatitis, treatment with acridine dyes, 395-113.
Stomatitis, ulcero-membranous, treatment, 384-109.
Stomatological clinic and maternity dispensary, 134-127.
Streptococci, elective localization of, 60-84.
Subgingival treatment, 417-120.

Tartars, dental, etiology and histology of, 313-86.
Thrush in children, systemic, 252-104.
Treatment of pyorrhea, cooperation of the patient in, 389-111.
Trench mouth, 208-124.
Toothbrush, 62-122.
Toothbrush, its use and abuse, 60-122.

Ulcerations in mouth during menstruation, 158-132.
Ulcerative colitis, deficiency states, 248-101.
Ulcerative vulvitis and stomatitis of endocrine origin, 166-134.
Union Catalogue of Medical Literature, 161-132.

Vincent's infection, 202-122; 203-123; 205-123; 214-125.
Vincent's infection, public health aspects, 218-126.
Vincent's infection, recent studies, 216-126.
Vincent's infection and periodontoclasia, 251-102; 400-115.
Vincent's infection, treatment with cerous-ceric-chromate, 213-125.
Vincent's organisms in rural school children, 211-125.
Vincent's stomatitis, 204-123.
